group indemnity medical insurance

Expenses associated with a hospital stay can be financially difficult if money is tight and you are not prepared. But having the right coverage in place to help when a sickness or injury occurs can help eliminate your financial concerns and provide support at a time when it is needed most.

Our coverage helps offer peace of mind when a hospitalization occurs. Below is an example of how benefits are paid in the event you or a covered family member are hospitalized.*

Jane chooses benefit coverage under her **Employer Approved Plan**

Three years later, Jane's on a summer cycling vacation when she falls and breaks her foot in four places. She suffers bruising and swelling of her head and left leg.

Jane is taken by ambulance to the nearest hospital emergency room where she is admitted to intensive care for trauma to her head.

Two days later, Jane is released from intensive care and moved to a regular hospital room, where she undergoes surgery on her foot. She is visited by a doctor during her stay. Two days later Jane is released and the doctor prescribes medications to aid in her recovery and help with her pain.

Jane's coverage provided the following benefits:

First Day Hospital Confinement	\$2,500
Daily Hospital Confinement	\$1,500
Hospital Intensive Care	\$1,000

Total Benefits: \$5,000
