

# PARKS' MAP GUIDE

## SEARCH

The search box allows you to search Lexington by any address, intersection or common places like schools and parks.

- Once you've input an address, icons identifying nearby parks, park shelters and park activities will appear. When you click on an icon, it will display information about what it is.

*For example, a shelter location may display photos, a list of amenities and/or a link to reserve the shelter location.*

- You must zoom in on the map to make shelters and activities appear.

## MAP ICONS

**PARK**

**SHELTERS**

**ACTIVITIES**

## MAP FUNCTIONS

### ZOOM IN

map view zooms in

### ZOOM OUT

map view zooms out

### DEFAULT

returns to the original map view

### MY LOCATION

detects your physical location and zooms to it on the map

### ACTIVITY FILTER

Allows you to filter parks by activity. *For example, if you select 'basketball' then only parks with basketball courts will appear.*

### NEARBY

Allows you to select a defined area (*i.e. two miles*) around a specific location so that you can see what parks, shelters or activities are within that area

### DIRECTIONS

Calculates and displays directions/routes between two or more locations

### BASEMAP GALLERY

Allows you to toggle between a map view and an aerial photo view
