ABC Requirements for Expanded Business Footprint

In conjunction with the requirements set forth in LFUCG Ordinance 42-2020 passed on May 19, 2020, the Lexington ABC Office will need the following information provided by any licensed ABC establishment desiring to expand their current operating premises during the effective time of the ordinance. No additional application will be required, but these documents must be submitted to our office via email at ABC@lexingtonpolice.ky.gov before using the expanded area so the files can be updated.

- 1) A letter from the landlord or property owner granting permission to expand the business to the proposed area.
- 2) A detailed diagram of seating and the new boundaries that will be used for service. Describe the means of separating the new temporary area of service from public areas such as the use of temporary fencing, rope and stanchion, or other method. Keep in mind the distancing to meet ADA requirements.
- 3) A plan on how the business will monitor the expanded premises to ensure compliance with current applicable ABC regulations, such as ensuring patrons are not leaving the premises with opened alcoholic beverage containers.
