Project Name: Explorium of Lexington - Children's Museum Assistance

Project Identification Number	AR_EXPLOR_2022
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.34-Assistance to Impacted Nonprofit Organizations (Impacted or Disproportionately Impacted)
Status To Completion	Completed
Adopted Budget	\$125,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$125,000.00
Total Cumulative Expenditures	\$125,000.00
Current Period Obligations	\$41,672.00
Current Period Expenditures	\$41,672.00
Project Description	<p>Explorium of Lexington is a non-profit children's museum with hand-on exhibits that are fun and educational. It is the only children's museum located in Fayette County. The museum strives to be a warm, friendly place where families come to learn and play together, and is a dedicated partner and resource for teachers. Their programs vary from toddler and preschool programs to guided art experiences to special programs exploring key subject areas.</p> <p>The Explorium relied on earned and contributed revenue sources for funding. During COVID, the museum experienced significant revenue loss due to museum closures as well as lost revenue from parties, field trips, off-site programming, on-site store, and rental loss. For the 12 months from April 2020-March 2021, the Explorium's earned income was reduced by 80%.</p> <p>Recognizing the importance of this non-profit to the goals of LFUCG, and with the understanding that that COVID-19 created significant financial hardships within the non-profit community, ARPA funding has been obligated to pay benefit costs, costs to retain employees, rent, utility costs, and operating costs of the organization.</p> <p>The Explorium Children's Museum is located within a Qualified Census Tract. The Explorium also serves as a resource for elementary teachers of Fayette County Public Schools, where 26 of 37 elementary schools receive Title I funds for school-wide programs.</p>
What Impacted and/or Disproportionately Impacted population does this project primarily serve?	25 Dis Imp NPs operating in Qualified Census Tracts

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The Explorium is a children's museum with hands-on exhibits that are fun and educational. Their admissions, parties, field trips, off-site programming, store and membership revenue was severely limited due to being closed for 3.5 months and then open on a limited basis. ARPA funding is helping to reduce the income loss due to Covid-19.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Grants are allowed to assist small businesses and non-profits to mitigate hardship such as declines in revenues or impacts of periods of closure.
Number of Non-Profits served (by program if recipient establishes multiple separate non-profit assistance programs)	0

Program Income Expended	\$0.00
Total Cumulative Obligations	\$0.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>The supporting 5,000sf gymnasium facility is located immediately adjacent to the main Black & Williams Neighborhood Center at 498 Georgetown Street.</p> <p>This project will return the currently shuttered facility to an accessible, environmentally safe condition, with modernized utility infrastructure. The scope will include upgrades to the mechanical, electrical, lighting, and plumbing systems. New storage, stage platform, warming kitchenette and ADA-accessible restrooms will be created to support the main renovated community room for nearby residents and social services based organizations serving multi-generational populations.</p> <p>The rehabilitated facility will provide services and programs supporting multi-generational populations in a disproportionately impacted community. The project will provide physical activity opportunities in an underserved, predominantly minority community. While the programming model for multi-purpose activity is not yet fully defined, we do have concepts for how the facility can be utilized. For example, the main building (next door) currently houses programs for seniors and youth. The seniors' aerobics and youth "play" time are both currently programmed in smaller classroom spaces, and could easily be expanded to the gymnasium. In addition, other community-based physical activities (dance, fitness, athletics, etc.) will easily be accommodated by the renovated gym. Lastly, no other indoor public facility of this scale (5,000 square feet) is present or available in the West End / Georgetown Street area neighborhood. This facility is meant for all ages to promote social interaction, education, volunteerism, civic pride, cultural diversity, and inclusion.</p>

Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	LFUCG's affordable housing program is designed to ensure safe, quality affordable housing for low and moderate income households in Lexington, Kentucky. The program funds both new construction and the preservation of units. The populations being housed experienced negative impacts including housing insecurity, reduced wages, and increased costs of housing and basic human needs.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The AH program is focused on assisting households whose incomes were reduced due to the COVID-19 pandemic. This reduction in income combined with increased housing and other costs has resulted in lower income families experiencing a significant economic impact. These increased costs enhance the need for affordable housing units throughout Lexington, Kentucky.

Program Income Expended	\$0.00
Total Cumulative Obligations	\$0.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>LFUCG developed the Recovery Supportive Living Assistance (RSLA) Program in October 2020 in response to the growing number of individuals in early recovery from substance use disorder who were experiencing a financial barrier to entering or continuing in a recovery housing program. The COVID-19 pandemic was hitting the individuals with substance use disorder or in early recovery from substance use disorder very hard. Many individuals in early recovery obtain employment in the hospitality industry, an industry that was devastated by COVID-19. Jobs were lost temporarily or permanently with very little warning. Hospitality jobs that were traditionally relatively easy to obtain for an individual in early recovery were scarce. Although it typically took two weeks or less to secure employment upon admission to a recovery residence, in many cases it was taking much longer to secure initial employment or find another job if the first was lost due to the pandemic. It was not uncommon for everyone living in a recovery residence to miss weeks of work due to COVID-19 infection or exposure.</p> <p>Entering a recovery residence provides the support and structure crucial to recover from substance use disorder. It provides a balance of drug-free support, accountability to peers and an opportunity to live in a safe, affordable, sober environment at a critical time in a person's recovery journey. RSLA provides up to \$400.00 in assistance to individuals continuing in or entering a recovery residence. Typically, recovery residences charge between \$100 and \$125.00 per week. This fee includes a bedroom, shared access to common areas (kitchen, bathroom, family room, etc.) and utilities. While each residence has its own guidelines, most include a minimum number of mutual support meetings per week, random drug testing, house meetings and alternating chores. These funds help cover expenses while the individual is seeking employment, which has created a challenge for many during the COVID-19 pandemic.</p>

Project Name: Emergency Financial Assistance (EFA) FY 2023

Project Identification Number	EFAFY23
Project Expenditure Category	2-Negative Economic Impacts

Project Expenditure Subcategory	2.2-Household Assistance: Rent, Mortgage, and Utility Aid

Program Income Expended	\$0.00
Total Cumulative Obligations	\$0.00
Total Cumulative Expenditures	\$0.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	Project will add a second floor to the Emergency Shelter in order to provide supportive transitional housing for men with mental illness and substance abuse issues. The new space would also be used for veterans who are homeless and in need of assistance. The project allows them to provide the supportive case management needed to assist their clients to return to self-sufficiency and more quickly transition back into permanent housing and end their cycle of homelessness.

Project Name: Homelessness Contract - Transitional Housing Pilot Program

Project Identification Number	TRADHOUSPIL
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.16-Long-Term Housing Security: Services for Unhoused persons
Status To Completion	Not Started
Adopted Budget	\$4,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$0.00
Total Cumulative Expenditures	\$0.00

Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>Due to the ongoing COVID-19 pandemic, the homelessness response system needs to develop more effective and efficient programs to move individuals directly into permanent housing from a homelessness occurrence, without the development of additional congregate living spaces or temporary emergency shelters. The pandemic exacerbated these challenges as it places more people at risk of eviction and homelessness, and more stress on service providers who may face increased demand with fewer resources.</p> <p>The program will provide temporary, transitional housing units in one or more locations with robust supportive services to facilitate individual stabilization, increased income, and movement of the household to exit to permanent housing. The program will focus on providing supportive services that allow the household to secure permanent, stable housing. It is expected that households will transition from the program in approximately 3-6 months.</p>

Project Name: Non-Profit Capital Grants

	This project will lead to economic opportunity by increasing job readiness, job access, financial empowerment, and employment of Fayette County residents. The ADA Health Policy Institute COVID-19 Economic Impact study published May 2021 found that 89% of dentists said finding credentialed dental hygienists was currently extremely challenging. The pay for dental hygienists is premium and increasing; according to the Bureau of Labor Statistics (BLS), dental hygienists earned a median pay of \$77,090

Project Description	<p>with a \$37.06 hourly wage last year. That's an increase over 2019's \$76,220 and \$36.65 totals. With this vital expansion, BCTC can help struggling Lexingtonians by giving them the skills they need to fill these high wage, high demand positions.</p> <p>This project would not only address an essential component of economic recovery and growth, but it would have a large public health impact as we train health care professionals to serve this area. Dentists need trained hygienists, and Bluegrass Community and Technical College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award degrees, diplomas, and certificates. BCTC also has the necessary processes and systems in place to comply with the reporting requirements of the Federal Funding Accountability and Transparency Act of 2006 (Pub. Law 109-282, as amended by section 6202 of Pub. Law 110-252).</p> <p>The final rule allows for investments in neighborhoods located in QCTs. Neighborhood features that promote improved health and safety outcomes respond to the pre-existing disparities that contributed to COVID-19's disproportionate impacts on low-income communities. Further, new construction of schools and other educational facilities are eligible capital expenditures for disproportionately impacted communities.</p>

Project Description	<p>Accelerator II program will build on continued minority growth and spend trends to encourage minority business growth in two ways. First, it will prepare minority business owners to meet the needs of large customers and sizable business opportunities, thus increasing the likelihood that businesses will win substantial contracts with key local organizations. Second, the accelerator can connect businesses to the operating capital needed to execute against these larger opportunities.</p> <p>The overall objectives of Accelerator II are to:</p> <ul style="list-style-type: none"> • Identify the minority companies that are best suited to meet expectations immediately and provide the platform for them to excel. • Create a coalition of Champions that are positioned to change the current mindset. • Identify out-of-market minority owned companies that are willing to establish a local presence and provide infrastructure and scalability for existing local minority owned companies via joint venture agreements, operating agreements or strategic alliances. • Implement a proven tracking and reporting system to measure progress and provide checks and balances. • Acknowledge and reward the public and private leaders who champion this initiative. <p>Specific goals of Accelerator II will be, over a 3-year period, to:</p> <ol style="list-style-type: none"> 1. Add a minimum of 15 (fifteen) new minority-owned businesses to the program (5/year). 2. Grow the new sales of those businesses by \$15M (\$5M/year). <p>According to various reports researching the economic impact of Covid 19 it is well documented that ethnic minority owned businesses (EMOB) were among the most negatively impacted. Many of these businesses were undercapitalized and unable to access the funding necessary to withstand a pandemic. Many small businesses endured some of the same challenges, however, EMOBs were disproportionately forced to close their businesses. As many ethnic minorities are employed in the service, hospitality, and manufacturing industries, which were among the hardest hit during the pandemic, they found themselves laid off or reduced hours. Research shows that EMOBs are more likely</p>

	to hire other ethnic minorities. That being the case it can be concluded that ethnic minorities were faced with a more difficult economic reality due to the pandemic. As more companies were impacted negatively so were their employees. The Expanded Minority Business Accelerator will work to combat these issues in the Central KY Region by providing the relationships, training, tools and support necessary to ensure that EMOBs have the infrastructure, revenues and funding necessary to thrive and sustain during difficult times. As these companies progress we will track and report the results of their sustainability and growth. Focusing on the sustainability and growth of EMOBs will help to ensure that Fayette Co. and Central KY continue to have a thriving businesses community inclusive of all ethnic minorities.

Project Description	<p>The \$1 million allocation will partially fund a new public library facility along a major corridor in Lexington. This ARPA allocation will be used for construction of the new facility.</p> <p>The neighborhood surrounding the new Library is approximately 40% Latinx, 30% Black American, and 30% White (according to US Census), making it one of Lexington's most racially and culturally diverse areas. Lexington Public Library is committed to equity in all areas, offering free resources to everyone who lives or works in Fayette County. In developing the new library facility here, we will deliver additional resources for residents within this Qualified Census Tract. Plans call for a dedicated classroom and hands-on learning space both of which will support school-aged and adult learning. Computers, internet, technology, and reading materials all support economic development by providing library customers with information and resources they need to succeed. While all Lexington residents will benefit from this new facility, it will especially benefit those within the Cardinal Valley/Versailles Road area.</p>

Woodland Pool-install 4 new filter tanks.</p> <p>Tates Creek Pool Play Feature: Repair pool play feature.</p> <p>Woodland Pool Play Feature: Install new pool play feature.</p> <p>The Aquatics section of Parks and Recreation has always worked hard to offer amenities and programs to underserved communities throughout the area. Aquatics offers scholarship programs that reduce season pass and swim lesson costs in half, free swim lessons, and events throughout the swim season. Three of the six pools are located in traditionally lower income areas and enjoy attendance of primarily teens and young families. Unfortunately, due to recent budget strictures, a long list of deferred maintenance projects has developed. These projects will ensure that these 6 aquatic facilities remain operational and running at greater efficiency. Replacing pumps, motors, filter tanks, diving boards etc. may not seem like they are serving communities in need on the surface, but without this investment, our Aquatic system would be on the verge of collapse. Investment in the pump rooms and filtration systems will allow us to continue providing free swim lessons at Douglass Pool, neighborhood events at Castlewood Aquatic Center, in addition to general recreational opportunities to swim that all communities should have the opportunity to enjoy.</p>

Project Description	<p>This project will develop a new large-scale regional park in western Fayette County similar to other regional parks such as Jacobson, Shillito, Veterans, and Masterson Station. Regional parks serve broad community populations throughout Fayette County, including large populations of minority, lower income, and underserved citizens because of the variety, quantity, and quality of the features they offer. They serve as destination park for many citizens willing to travel, including citizens living in QCT areas, in addition to serving the local community. Regional parks are easily accessible and are designed to be inclusive for all community members regardless of income, age, race, ethnicity, or ability-level.</p> <p>This project will greatly enhance fitness and activity, while improving accessibly, through the construction of paved trails and multi-purpose sports fields. Multi-purpose sports fields in parks have a high usage among minority and lower income communities due to the minimal cost compared to organized sports.</p> <p>This project will greatly enhance the intergenerational experience and improve accessibility through the construction of a playground and shelters. The project is included in our Parks Masterplan.</p>

Project Description	<p>The supporting 5,000sf gymnasium facility is located immediately adjacent to the main Black & Williams Neighborhood Center at 498 Georgetown Street.</p> <p>This project will return the currently shuttered facility to an accessible, environmentally safe condition, with modernized utility infrastructure. The scope will include upgrades to the mechanical, electrical, lighting, and plumbing systems. New storage, stage platform, warming kitchenette and ADA-accessible restrooms will be created to support the main renovated community room for nearby residents and social services based organizations serving multi-generational populations.</p> <p>The rehabilitated facility will provide services and programs supporting multi-generational populations in a disproportionately impacted community. The project will provide physical activity opportunities in an underserved, predominantly minority community. While the programming model for multi-purpose activity is not yet fully defined, we do have concepts for how the facility can be utilized. For example, the main building (next door) currently houses programs for seniors and youth. The seniors' aerobics and youth "play" time are both currently programmed in smaller classroom spaces, and could easily be expanded to the gymnasium. In addition, other community-based physical activities (dance, fitness, athletics, etc.) will easily be accommodated by the renovated gym. Lastly, no other</p>

	The Office of Homelessness Prevention and Intervention was created in 2014 in response to the Report of the Mayor's Commission on Homelessness. The OHPI is the collaborative applicant and lead organization for the city's Continuum of Care. The Lexington CoC is the planning body in our community that coordinates the policies, strategies and activities to prevent and reduce homelessness.

Project Description	<p>The city's two person team coordinates activities and planning for providers, stakeholders, and affected citizens to ensure an efficient and effective system offering everyone access to shelter, food, employment, housing, and other basic needs and opportunities. The office serves as an information source and assists with problem-solving and communications for difficult situations requiring multiple resources and organizations. Funding includes awards to non-profit partners directly serving individuals and families experiencing homelessness.</p> <p>Funding spent prior to July 31, 2021 is related to costs associated with the Homelessness Management Information System (HMIS), a centralized electronic information database of client information. This database permits sharing of client data between different social service and healthcare organizations, allowing providers to see portions or all of the client's records from all agencies combined. This allows for a clear picture of a client's history and current status. Each year, over 4,000 clients are entered into this database from our local community. This allows our community the ability to "talk" to one another and provide the most effective and efficient services to clients.</p>

Project Description	<p>This project will greatly enhance Raven Run Park by repairing the roof as a critical step to restoring the Prather House, which is of historical significance as one of the oldest brick homes in Central Kentucky.</p> <p>This project will address the needs of the community to preserve historic buildings and landmarks.</p> <p>The goals of the project are to preserve the historic Prather House at Raven Run Park for current and future residents and visitors to the park. Historic buildings are an important part of preserving the history of Fayette County, and the Prather House is a perfect example of a building that has been in disrepair but can be restored as an example of a brick home from the 1800's.</p> <p>These improvements were included in the Lexington Parks and Recreation Master Plan, but have not been funded due to lack of funding availability. Budgets for FY2020 and FY2021 were greatly impacted by COVID-19, and resulted in projects being held or not funded on a regular schedule. Building repair is considered a general service of LFUCG, and is therefore an eligible expense under EC 6.1 – Provision of Government Services.</p>

Project Description	<p>The FY2022 Adopted Budget included ARPA funding to design and administer a pilot funding program, targeted towards homeowners with low income that have received a notice of violation from the City’s Division of Code Enforcement.</p> <p>The Mayor’s Commission for Racial Justice & Equality issued a report in October 2020 that included a recommendation that “the Housing Code of the City of Lexington be reimagined into a Code Agency that places the health, well-being, and protection of residents (especially the most vulnerable) and neighborhoods as its mission.” As part of this recommendation, it was envisioned that the agency would work with residents and neighborhoods to create and sustain flourishing communities rather than a punitive financial tactic. In reviewing the top ten code violations issued within the LFUCG area, it was noted that the list included items like repairing cornices, cleaning veneer that is peeling or unsightly, and replacing broken or rotted window casings. LFUCG will design a funding program that will provide an avenue for assistance whereby homeowners with low-income can seek assistance to correct certain identified code violations.</p>

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Create an advertising campaign focused on showcasing Lexington as a meetings and conventions destination. Design and build a new booth to attend tradeshow to create more leads for meetings and conventions. An increase in leads will result in an increase in definite bookings which will result in increase jobs and expenditures at supporting businesses.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	The travel and tourism industry was disproportionately impacted by COVID-19. With the travel bans that were issued most jobs in the industry were eliminated for furloughed. Jobs and businesses that supported the meetings and conventions sector cannot be restored until meetings and conventions return. The concerted focus of efforts and spending to recapture market share during a time of intense competition necessary to return our residents to the jobs and restore the supporting businesses.

Project Description	<p>The Lyric is a theater of historical significance, originally built as a movie house in 1948. The theater was a thriving entertainment centerpiece for Lexington’s African-American families through 1963, but after closing was dormant for nearly 50 years. Today, it serves as a non-profit theater and cultural arts center dedicated to preserving, promoting, presenting, and celebrating diverse cultures through artistic presentations of the highest quality, educational programming and outreach, film, and opportunities for community inclusion. The Lyric relies on income from rentals, ticket sales, and concessions as earned income. Large events were not permitted under pandemic safety measures, leaving the Lyric Theater closed during much of 2020 and creating a significant revenue loss.</p> <p>Recognizing the importance of this non-profit to the goals of LFUCG, and with the understanding that that COVID-19 created significant financial hardships within the non-profit community, ARPA funding has been obligated to pay benefit costs, costs to retain employees, utility costs, and operating costs of the organization.</p>

Project Description	<p>LFUCG developed the Recovery Supportive Living Assistance (RSLA) Program in October 2020 in response to the growing number of individuals in early recovery from substance use disorder who were experiencing a financial barrier to entering or continuing in a recovery housing program. The COVID-19 pandemic was hitting the individuals with substance use disorder or in early recovery from substance use disorder very hard. Many individuals in early recovery obtain employment in the hospitality industry, an industry that was devastated by COVID-19. Jobs were lost temporarily or permanently with very little warning. Hospitality jobs that were traditionally relatively easy to obtain for an individual in early recovery were scarce. Although it typically took two weeks or less to secure employment upon admission to a recovery residence, in many cases it was taking much longer to secure initial employment or find another job if the first was lost due to the pandemic. It was not uncommon for everyone living in a recovery residence to miss weeks of work due to COVID-19 infection or exposure.</p> <p>Entering a recovery residence provides the support and structure crucial to recover from substance use disorder. 	peers and an opportunity to live in a safe, affordable, sober environment at a critical time in a person's recovery journey. RSLA provides up to \$400.00 in assistance to individuals continuing in or entering a recovery residence. Typically, recovery residences charge between \$100 and \$125 per week. This fee includes a bedroom, shared access to common areas (kitchen, bathroom, family room, etc.) and utilities. While each residence has its own guidelines, most include a minimum number of mutual support meetings per week, random drug testing, house meetings and alternating chores. These funds help cover expenses while the individual is seeking employment, which has created a challenge for many during the COVID-19 pandemic.

Description	<p>Funds to pay payroll and benefit costs, costs to retain employees, rent, utility costs, and operating costs.</p> <p>ARPA funding has supported The Explorium's rent and utility costs since July 2021. Since July 2021, The Explorium has experienced drastic decreases in typical pre-pandemic revenues. As the Delta and Omicron variants took hold in Fall 2021 and Winter 2021-22, respectively, The Explorium once again was significantly impacted by reduced revenue for admissions, birthday parties, field trips, and camps. As we navigated the waters and created inventive ways to provide non-traditional programming, we were still significantly impacted.</p> <p>ARPA funding has essentially kept the doors open.</p>

Description	<p>In March 2020, in response to the COVID-19 pandemic, the homelessness response system expanded use of the medical respite program to include all households that were pending a COVID-19 test and those testing positive. The ability of the system to expand this program has resulted in limited congregate shelter spread and zero deaths as of December 2021. Bluegrass Care Navigators was able to cover all costs for this expanded response until late summer 2021.</p> <p>During August, September, and December 2021 all three (3) Lexington congregate shelters experienced increased community spread resulting in large numbers of COVID-19 positive cases requiring isolation.</p>
