| Project Description | <p>This project will develop a new large-scale regional park in western Fayette County similar to other regional parks such as Jacobson, Shillito, Veterans, and Masterson Station. Regional parks serve broad community populations throughout Fayette County, including large populations of minority, lower income, and underserved citizens because of the variety, quantity, and quality of the features they offer. They serve as destination park for many citizens willing to travel, including citizens living in QCT areas, in addition to serving the local community. Regional parks are easily accessible and are designed to be inclusive for all community members regardless of income, age, race, ethnicity, or ability-level.</p> <p>This project will greatly enhance fitness and activity, while improving accessibly, through the construction of paved trails and multi-purpose sports fields. Multi-purpose sports fields in parks have a high usage among minority and lower income communities due to the minimal cost compared to organized sports.</p> <p>This project will greatly enhance the intergenerational experience and improve accessibility through the construction of a playground and shelters. The project is included in our Parks Masterplan.</p> |

| Project Description | <p>Parks Masterplan Aquatics improvements and renovations. Pump Replacement: Castlewood Pool- replace slide pump. Southland Pool- replace baby pool feature pump. Diving Board Replacement: Douglass Pool- replace 1 diving board. Shillito Pool- replace 1 diving board. Southland Pool- replace 2 diving boards and stands. Woodland Pool- replace 1 diving board and re-mount stand. Slide Installation: Douglass Pool- install 1 new slide feature.</p> <p>Douglass Pool Filter System Conversion: convert to new pool filter system. Shillito Pool Concrete Repair: Repair concrete around pool due to settling issues. Southland Pool Play Feature: Install new pool play feature. Tank Replacement: Southland Pool- replace 3 filter tanks for main pool. Woodland Pool-install 4 new filter tanks. Tates Creek Pool Play Feature: Repair pool play feature. Woodland Pool Play Feature: Install new pool play feature.</p> <p>The Aquatics section of Parks and Recreation has always worked hard to offer amenities and programs to underserved communities throughout the area. Aquatics offers scholarship programs that reduce season pass and swim lesson costs in half, free swim lessons, and events throughout the swim season. Three of the six pools are located in traditionally lower income areas and enjoy attendance of primarily teens and young families. Unfortunately, due to recent budget strictures, a long list of deferred maintenance projects has developed. These projects will ensure that these 6 aquatic facilities remain operational and running at greater efficiency. Replacing pumps, motors, filter tanks, diving boards etc. may not seem like they are serving communities in need on the surface, but without this investment, our Aquatic system would be on the verge of collapse. Investment in the pump</p> |

The renovation will also impact a section of the first floor.</p> <p>The allocation also includes acquisition of the building from the Commonwealth of Kentucky.</p> <p>The Pam Miller Downtown Arts Center is an arts and entertainment facility located on Main Street, in the heart of downtown Lexington. The PMDAC offers a variety of both visual and performing arts with theatre, dance and music programs as well as exhibits in all media including painting, sculpture, photography, mixed media, film and digital arts. Meeting and event space is also available. The facility is located in a QCT, and part of the greater urban core of Lexington, which primarily consists of QCT areas. Simply put, this facility, the programs offered, and its central location will greatly benefit low-income communities that have been historically underserved. Programming is diverse and multifaceted to reflect the surrounding community with care to be inclusive, affordable equitable and educational. The venue offers low cost rental rates to qualified participants and a rent free exhibit space for emerging artists, community groups and others. This project will allow Fayette County residents of all ages, abilities, and income levels accessibility to enjoy and participate in a variety of enriching arts experiences. This renovation will provide</p> |

The program targets individuals and families who are identified and referred by key partners, including the Lexington Police Department, Fayette County Public Schools, Fayette County Drug Court, Court Designated Workers Office, County Attorney's Office, and UK Healthcare Trauma Center.</p> <p>Our program staff meets with participants at their homes or at their hospital bedside, builds rapport with them, and conducts an assessment of their needs within 24-48 hours of a referral. They then identify resources that are available to help participants, complete a case plan for the participant, and identify community partners to help assist the individuals or families. Partners provide mentoring and assist with meeting urgent needs such as getting the participants into emergency housing, offering behavioral health care, connecting them to jobs, providing financial assistance, and providing food and clothing. Staff continue to provide ongoing case management and coordinate care with the partners.</p> <p>We will measure our success by whether we prevent retaliation and re-injury with survivors of gunshots and stabbings. For those individuals and households who are at high-risk of violence but have not yet been involved in an incident, we will measure success by whether we prevent participation in a violent crime or being injured by gunshot or stabbings.</p> |

Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19

In response to COVID-19 the team increased phone contact and protected in person contacts to provide processing and support through the delays and service changes. Increased virtual/telehealth and hybrid options to overcome service interruptions. Implemented Mental Health Court graduates/alumni check-ins to offer support navigating post-graduation and COVID-19 challenges. The team is conducting continuous reviews of protocols with treatment centers and providers to support client referrals.

| Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19 | Domestic violence has been described as a "pandemic within a pandemic." A recent study published by the National Commission on COVID-19 and Criminal Justice found that domestic violence in the U.S. has increased by 8.1% since the pandemic response began. Local practice indicates more complex and severe abuse during the pandemic emergency. Specifically, the organization has noted increased disclosure of strangulation and technology-based violence upon intake to emergency shelter. |

This ARPA allocation will be used for construction of the new facility.</p> <p>The neighborhood surrounding the new Library is approximately 40% Latinx, 30% Black American, and 30% White (according to US Census), making it one of Lexington's most racially and culturally diverse areas. Lexington Public Library is committed to equity in all areas, offering free resources to everyone who lives or works in Fayette County. In developing the new library facility here, we will deliver additional resources for residents within this Qualified Census Tract. Plans call for a dedicated classroom and hands-on learning space both of which will support school-aged and adult learning. Computers, internet, technology, and reading materials all support economic development by providing library customers with information and resources they need to succeed. | Current Period Expenditures | \$135,424.00 |
| Project Description | <p>Accelerator II program will build on continued minority growth and spend trends to encourage minority business growth in two ways. First, it will prepare minority business owners to meet the needs of large customers and sizable business opportunities, thus increasing the likelihood that businesses will win substantial contracts with key local organizations. Second, the accelerator can connect businesses to the operating capital needed to execute against these larger opportunities.</p> <p>The overall objectives of Accelerator II are to:</p> <ul style="list-style-type: none"> • Identify the minority companies that are best suited to meet expectations immediately and provide the platform for them to excel. • Create a coalition of Champions that are positioned to change the current mindset. • Identify out-of-market minority owned companies that are willing to establish a local presence and provide infrastructure and scalability for existing local minority owned companies via joint venture agreements, operating agreements or strategic alliances. • Implement a proven tracking and reporting system to measure progress and provide checks and balances. • Acknowledge and reward the public and private leaders who champion this initiative. <p>Specific goals of Accelerator II will be, over a 3-year period, to:</p> <ol style="list-style-type: none"> 1. Add a minimum of 15 (fifteen) new minority-owned businesses to the program (5/year). 2. Grow the new sales of those businesses by \$15M (\$5M/year). <p>According to various reports researching the economic impact of Covid 19 it is well documented that ethnic minority owned businesses (EMOB) were among the most negatively impacted. Many of these businesses were undercapitalized and unable to access the funding necessary to withstand a pandemic. Many small businesses endured some of the same challenges, however, EMOBs were disproportionately forced to close their businesses. As many ethnic minorities are employed in the service, hospitality, and manufacturing industries, which were among the hardest hit during the pandemic, they found themselves laid off or reduced hours. Research shows that EMOBs are more likely to hire other ethnic minorities. That being the case it can be concluded that ethnic minorities were faced with a more</p> |

The Expanded Minority Business Accelerator will work to combat these issues in the Central KY Region by providing the relationships, training, tools and support necessary to ensure that EMOBs have the infrastructure, revenues and funding necessary to thrive and sustain during difficult times. As these companies progress we will track and report the results of their sustainability and growth. Focusing on the sustainability and growth of EMOBs will help to ensure that Fayette Co. and Central KY continue to have a thriving businesses community inclusive of all ethnic minorities. |

| Project Description | <p>This project will lead to economic opportunity by increasing job readiness, job access, financial empowerment, and employment of Fayette County residents. The ADA Health Policy Institute COVID-19 Economic Impact study published May 2021 found that 89% of dentists said finding credentialed dental hygienists was currently extremely challenging. The pay for dental hygienists is premium and increasing; according to the Bureau of Labor Statistics (BLS), dental hygienists earned a median pay of \$77,090 with a \$37.06 hourly wage last year. That’s an increase over 2019’s \$76,220 and \$36.65 totals. With this vital expansion, BCTC can help struggling Lexingtonians by giving them the skills they need to fill these high wage, high demand positions.</p> <p>This project would not only address an essential component of economic recovery and growth, but it would have a large public health impact as we train health care professionals to serve this area. Dentists need trained hygienists, and Bluegrass Community and Technical College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award degrees, diplomas, and certificates. BCTC also has the necessary processes and systems in place to comply with the reporting requirements of the Federal Funding Accountability and Transparency Act of 2006 (Pub. Law 109-282, as amended by section 6202 of Pub. Law 110-252).</p> <p>The final rule allows for investments in neighborhoods located in QCTs. Neighborhood features that promote improved health and safety outcomes respond to the pre-existing disparities that contributed to COVID-19's disproportionate impacts on low-income communities. Further, new construction of schools and other educational facilities are eligible capital expenditures for disproportionately impacted communities.</p> |

| Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced | <p>The project works to address the ongoing affordable housing crisis worsened by the lingering impact of the COVID-19 pandemic and subsequent economic downturn. The program's primary objective is to provide participants with a robust toolkit of skills and resources to aid them in securing and maintaining permanent, stable housing as quickly as possible.</p> <p>The project has two central components: 1) Transitional Housing and ICM services and 2) Supportive Services Only. Program has assisted 19 HHs.</p> |
| Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19 | CAC has worked with LFUCG's Department of Housing to ensure that the project design is an adequate response to the negative economic impact of COVID-19 for enrolled households. CAC developed this project to meet the immediate needs of those experiencing homelessness now in the short-term and to preserve affordable housing units in the longer term. |

| Total Cumulative Expenditures | \$134,975.00 |
| Current Period Obligations | \$55,600.00 |
| Current Period Expenditures | \$55,600.00 |
| Project Description | <p>LFUCG developed the Recovery Supportive Living Assistance (RSLA) Program in October 2020 in response to the growing number of individuals in early recovery from substance use disorder who were experiencing a financial barrier to entering or continuing in a recovery housing program. The COVID-19 pandemic was hitting the individuals with substance use disorder or in early recovery from substance use disorder very hard. Many individuals in early recovery obtain employment in the hospitality industry, an industry that was devastated by COVID-19. Jobs were lost temporarily or permanently with very little warning. Hospitality jobs that were traditionally relatively easy to obtain for an individual in early recovery were scarce. Although it typically took two weeks or less to secure employment upon admission to a recovery residence, in many cases it was taking much longer to secure initial employment or find another job if the first was lost due to the pandemic. It was not uncommon for everyone living in a recovery residence to miss weeks of work due to COVID-19 infection or exposure.</p> <p>Entering a recovery residence provides the support and structure crucial to recover from substance use disorder. It provides a balance of drug-free support, accountability to peers and an opportunity to live in a safe, affordable, sober environment at a critical time in a person's recovery journey. RSLA provides up to \$400.00 in assistance to individuals continuing in or entering a recovery residence. Typically, recovery residences charge between \$100 and \$125.00 per week. This fee includes a bedroom, shared access to common areas (kitchen, bathroom, family room, etc.) and utilities. While each residence has its own guidelines, most include a minimum number of mutual support meetings per week, random drug testing, house meetings and alternating chores. These funds help cover expenses while the individual is seeking employment, which has created a challenge for many during the COVID-19 pandemic.</p> |

| Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced | The 3-year program will serve 25 households each year with short-term housing assistance of 3-6 months. Initial leases will be held to the agency and transferred to the tenant to allow them to "transition in place". The project targets households with pets and/or other barriers to shelter. |
| Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19 | By providing safe, stable housing and assistance with permanent housing, this program moves individuals and families experiencing homelessness from settings like congregate shelter and homelessness encampments. This reduces strain on congregate shelters, provides a safer environment for unsheltered persons, and reduces community spread |

The project will provide physical activity opportunities in an underserved, predominantly minority community. While the programming model for multi-purpose activity is not yet fully defined, we do have concepts for how the facility can be utilized. For example, the main building (next door) currently houses programs for seniors and youth. The seniors' aerobics and youth "play" time are both currently programmed in smaller classroom spaces, and could easily be expanded to the gymnasium. In addition, other community-based physical activities (dance, fitness, athletics, etc.) will easily be accommodated by the renovated gym. Lastly, no other indoor public facility of this scale (5,000 square feet) is present or available in the West End / Georgetown Street area neighborhood. This facility is meant for all ages to promote social interaction, education, volunteerism, civic pride, cultural diversity, and inclusion.</p> |

| Project Description | <p>Explorium of Lexington is a non-profit children's museum with hand-on exhibits that are fun and educational. It is the only children's museum located in Fayette County. The museum strives to be a warm, friendly place where families come to learn and play together, and is a dedicated partner and resource for teachers. Their programs vary from toddler and preschool programs to guided art experiences to special programs exploring key subject areas.</p> <p>The Explorium relied on earned and contributed revenue sources for funding. During COVID, the museum experienced significant revenue loss due to museum closures as well as lost revenue from parties, field trips, off-site programming, on-site store, and rental loss. For the 12 months from April 2020-March 2021, the Explorium's earned income was reduced by 80%.</p> <p>Recognizing the importance of this non-profit to the goals of LFUCG, and with the understanding that that COVID-19 created significant financial hardships within the non-profit community, ARPA funding has been obligated to pay benefit costs, costs to retain employees, rent, utility costs, and operating costs of the organization.</p> <p>The Explorium Children's Museum is located within a Qualified Census Tract. The Explorium also serves as a resource for elementary teachers of Fayette County Public Schools, where 26 of 37 elementary schools receive Title I funds for school-wide programs.</p> |

| Project Description | <p>The supporting 5,000sf gymnasium facility is located immediately adjacent to the main Black & Williams Neighborhood Center at 498 Georgetown Street.</p> <p>This project will return the currently shuttered facility to an accessible, environmentally safe condition, with modernized utility infrastructure. The scope will include upgrades to the mechanical, electrical, lighting, and plumbing systems. New storage, stage platform, warming kitchenette and ADA-accessible restrooms will be created to support the main renovated community room for nearby residents and social services based organizations serving multi-generational populations.</p> <p>The rehabilitated facility will provide services and programs supporting multi-generational populations in a disproportionately impacted community. The project will provide physical activity opportunities in an underserved, predominantly minority community. While the programming model for multi-purpose activity is not yet fully defined, we do have concepts for how the facility can be utilized. For example, the main building (next door) currently houses programs for seniors and youth. The seniors' aerobics and youth "play" time are both currently programmed in smaller classroom spaces, and could easily be expanded to the gymnasium. In addition, other community-based physical activities (dance, fitness, athletics, etc.) will easily be accommodated by the renovated gym. Lastly, no other indoor public facility of this scale (5,000 square feet) is present or available in the West End / Georgetown Street area neighborhood. This facility is meant for all ages to promote social interaction, education, volunteerism, civic pride, cultural diversity, and inclusion.</p> |

| Project Description | <p>LFUCG developed the Recovery Supportive Living Assistance (RSLA) Program in October 2020 in response to the growing number of individuals in early recovery from substance use disorder who were experiencing a financial barrier to entering or continuing in a recovery housing program. The COVID-19 pandemic was hitting the individuals with substance use disorder or in early recovery from substance use disorder very hard. Many individuals in early recovery obtain employment in the hospitality industry, an industry that was devastated by COVID-19. Jobs were lost temporarily or permanently with very little warning. Hospitality jobs that were traditionally relatively easy to obtain for an individual in early recovery were scarce. Although it typically took two weeks or less to secure employment upon admission to a recovery residence, in many cases it was taking much longer to secure initial employment or find another job if the first was lost due to the pandemic. It was not uncommon for everyone living in a recovery residence to miss weeks of work due to COVID-19 infection or exposure.</p> <p>Entering a recovery residence provides the support and structure crucial to recover from substance use disorder. It provides a balance of drug-free support, accountability to peers and an opportunity to live in a safe, affordable, sober environment at a critical time in a person's recovery journey. RSLA provides up to \$400.00 in assistance to individuals continuing in or entering a recovery residence. Typically,</p> |

| Project Description | <p>The Lyric is a theater of historical significance, originally built as a movie house in 1948. The theater was a thriving entertainment centerpiece for Lexington's African-American families through 1963, but after closing was dormant for nearly 50 years. Today, it serves as a non-profit theater and cultural arts center dedicated to preserving, promoting, presenting, and celebrating diverse cultures through artistic presentations of the highest quality, educational programming and outreach, film, and opportunities for community inclusion. The Lyric relies on income from rentals, ticket sales, and concessions as earned income. Large events were not permitted under pandemic safety measures, leaving the Lyric Theater closed during much of 2020 and creating a significant revenue loss.</p> <p>Recognizing the importance of this non-profit to the goals of LFUCG, and with the understanding that that COVID-19 created significant financial hardships within the non-profit community, ARPA funding has been obligated to pay benefit costs, costs to retain employees, utility costs, and operating costs of the organization.</p> |

| <p>Project Description</p> | <p>ensure an efficient and effective system offering everyone access to shelter, food, employment, housing, and other basic needs and opportunities. The office serves as an information source and assists with problem-solving and communications for difficult situations requiring multiple resources and organizations. Funding includes awards to non-profit partners directly serving individuals and families experiencing homelessness.</p> <p>Funding spent prior to July 31, 2021 is related to costs associated with the Homelessness Management Information System (HMIS), a centralized electronic information database of client information. This database permits sharing of client data between different social service and healthcare organizations, allowing providers to see portions or all of the client's records from all agencies combined. This allows for a clear picture of a client's history and current status. Each year, over 4,000 clients are entered into this database from our local community. This allows our community the ability to "talk" to one another and provide the most effective and efficient services to clients.</p> |

| Description | <p>Funds to pay payroll and benefit costs, costs to retain employees, rent, utility costs, and operating costs.</p> <p>ARPA funding has supported The Explorium's rent and utility costs since July 2021. Since July 2021, The Explorium has experienced drastic decreases in typical pre-pandemic revenues. As the Delta and Omicron variants took hold in Fall 2021 and Winter 2021-22, respectively, The Explorium once again was significantly impacted by reduced revenue for admissions, birthday parties, field trips, and camps. As we navigated the waters and created inventive ways to provide non-traditional programming, we were still significantly impacted.</p> <p>ARPA funding has essentially kept the doors open.</p> |

| Description | <p>In March 2020, in response to the COVID-19 pandemic, the homelessness response system expanded use of the medical respite program to include all households that were pending a COVID-19 test and those testing positive. The ability of the system to expand this program has resulted in limited congregate shelter spread and zero deaths as of December 2021. Bluegrass Care Navigators was able to cover all costs for this expanded response until late summer 2021.</p> <p>During August, September, and December 2021 all three (3) Lexington congregate shelters experienced increased community spread resulting in large numbers of COVID-19 positive cases requiring isolation.</p> |
