HOUSING AND GENTRIFICATION

Housing & Gentrification Recommendation #1: The city must create an Office of Housing Advocate, by ordinance and with permanent funding, to centralize and provide oversight of the full spectrum of housing needs in our community.

   o Appointment of Charlie Lanter as Commissioner of the Department of Housing Advocacy and Community Development. Lanter will be working on several recommendations related to affordable housing.

Housing & Gentrification Recommendation #2: Changes must be implemented in the Division of Code Enforcement. **HEALTH DISPARITIES**

**Health Disparities Recommendation #1:** Data indicates a lack of community awareness of health-related resources and a lack of culturally competent healthcare providers, which contributes to mistrust of the healthcare system. Evidence indicates that Community Health Workers (CHWs)/Promoters are uniquely positioned to build trust and address the barriers by traditionally underserved communities when seeking medical care and services. The CHW will be a layperson, with at least a high school diploma, who lives in one of the areas that experience disparate health outcomes.

**Health Disparities Recommendation #2:** Improve Food Access & Healthy Food Options.

The most notable revisions to the collective bargaining agreement are consistent with recommendations that were in the Commission for Racial Justice and Equality Report. These revisions include the following:

**Recommendation #1:** Participation and transparency in LPD’s disciplinary process and civilian assistance

- IMPLEMENTATION ACTION:
  - The new agreement places two civilians on the Disciplinary Review Board. This is a significant change to the agreement. Previously, there were no civilians on the Disciplinary Review Board. Nominations for those two seats with a third as an alternate have begun.
    - Police publicize disciplinary dispositions as soon as available.
    - Police make every effort to comply with the stated time frames listed in the collective bargaining agreement on reaching disposition.
    - If an extension is needed past the collective bargaining agreement timeframes, the extension now must be in writing and made available to the public.
    - The City’s Law Department has worked with Police to communicate with residents about complaints they make and how to keep them updated throughout the process.

**Recommendation #3:** Officers be required to wear Body Worn Cameras

- IMPLEMENTATION ACTION:
  - Police now utilize body-worn camera (BWC) technology that allows for an automatic activation, i.e. when weapon drawn by officer.
    - Axon Signal Sidearm – activate BWC when Firearm drawn from holster.
    - Updated Taser – Activates BWC when turned on.
    - CAD Integration – Import calls for service data with our BWC System which will soon allow for the BWC system to be aware of calls officers respond to and help correctly identify incident case numbers.
    - Axon Performance – Builds off the CAD Integration and will soon automatically compare calls for service which would require BWC videos to the videos recorded by the Officer. Flags when BWC is not present for case.
    - Police now maintain non-evidentiary footage from BWCs for 60 days.

**Recommendation #4:** Reviews of the FOP and collective bargaining recommendations

- IMPLEMENTATION ACTION:
  - The City and the Fraternal Order of Police recently agreed to a new collective bargaining agreement.

Recommendation #8: Enhance information in police reports

IMPLEMENTATION ACTION:
Police have expanded information concerning searches in police reports.

Recommendation #9: Enhance community relations
